A Complete Dispersion

This sale will mark the complete dispersion of the long prominent Circle L Ranch Shorthorn Herd.

As a good friend of Dewey Lunstra of many years standing I realize that due to many reasons there is no other alternative.

The passing of Dewey's good wife and helpmate, Jen, has left an exceedingly vacant place at Circle L Ranch which they built together with the help of their family.

Now, Dewey has reached the retirement age and the only member of the family at home is Douglas, the youngest, who is in high school. Alone they carried on through the difficult past winter.

Therefore, everyone will agree that Dewey is entitled to a winter without livestock cares.

This final offering is a very carefully selected group of Shorthorns. A study of the catalog will verify this. All can be used to advantage in many good herds.

It is hoped that many of Dewey's world of friends will be present sale day as a tribute to all the help and boosting Dewey has given the Shorthorn industry, and the many shows and sales.

ALBERT J. HAMANN, Sale Manager

In 1967 we dispersed nearly the entire Circle L Ranch herd because we were no longer in a position to carry on with a large herd. However, we did retain a few older cows and a dozen younger heifers that were not in saleable condition at the time.

Needless to say, we did miss our herd. The few females we had left produced calves. Before long we were attending Shorthorn Sales and could not resist bidding on and buying promising heifers and good producing cows when they were offered.

It hardly seems possible but in two short years we again have a sizable herd of good producing females. The herd again numbers 86 head.

The severe winter of last year has again made us realize that due to age and health we are in no position to carry on with only two of us here alone which are Douglas, who is in high school, and myself.

Therefore, this will be a complete dispersion in every sense because we feel entitled to a winter without any livestock cares after a lifetime.

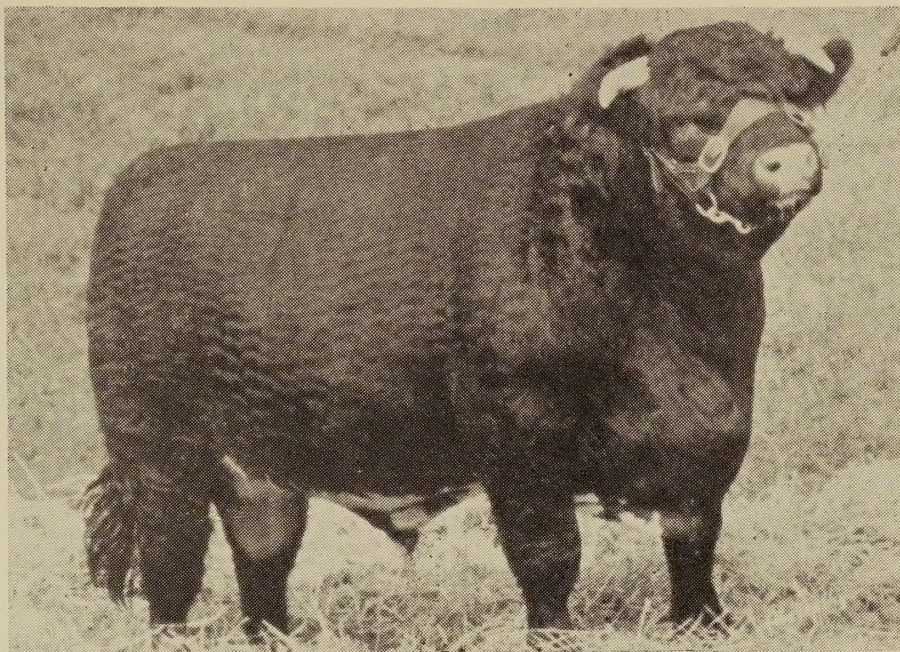

The females we had retained were from our best producing families and those purchased were carefully selected in that we topped a goodly number of sales and bought others in leading sales. We acquired two good herd bulls whose progeny speak for themselves.

We ask you to study this catalog carefully and are sure you will agree that this entire herd selling is up to previous high standards of Circle L Ranch.

It is with sorrow and regret that we leave the Shorthorn ranks after twenty-eight years of rewarding activity. However, we shall always remember the many good friends we have made and will make a sincere effort to keep in contact even in retirement.

We will be most pleased to have you with us on sale day.

Selling 7 Unregistered Bulls

NUMBERED LOTS 4 to 10 INCLUSIVE

These 7 bulls were not registered because we did not intend to be in the bull business. So they were developed naturally on grass for commercial use. However, they developed so well in size, scale and bone that they will be offered in the sale as unregistered, commercial bulls. However, any buyer can have a pedigree if he wishes by paying for the registration and transfer fees in addition to the purchase price.

MEMO

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals cataloged have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
